## Organizational Chart and Processes

### Mechanism/Norms and Procedure for democratic/Good Governance

With the hands-on experience of the management in running the educational Institutions, Institutional Management is designed in a scientific way with transparency to get the optimum results out of it.

A Top-down approach is followed in major decisions, with higher management being responsible for creating, deciding, and achieving the set goals.

Also clearly assigning the Duties, Responsibilities, Accountability, and Authorities at every stage empower employees to make decisions more quickly, collaborating between the hierarchies within the organization to ensure that they receive the better support that they need to finish tasks and projects in the most efficient manner possible.

The institution practices decentralization and participatory management in keeping with its principle in cooperative leadership and management.

The Governing Council (GC) is the apex body comprising of Management representatives, The Principal, Academicians and Industry experts, Faculty representatives and nominees from statutory governing bodies. The GC meets prior to the beginning of the academic year and lays down action plan in for the forth coming academic year.

The Principal leads academic and administrative processes of the Institute in line with directions from GC. The academic council comprising of The Principal, Dean (Academics) and HODs of all the Departments chalks down the strategy for curriculum delivery as per calendar of events. Value added courses/programs to bridge the gaps in the curriculum are focused. In addition, Principal delegates/assigns responsibilities to Deans of R&D, Faculty Development, Student Welfare and Examination sections as well as IQAC to plan and to execute the events in line with guidelines of GC.

The Principal also assigns IQAC the responsibility of preparing action plan for the overall quality improvement of the Institute and to take forward the accreditation preparations. IQAC, plans periodically monitor the quality enhancement processes of the Institute.

A particular reflection of this practice may be seen in the extensive delegation of authority to the Heads of the various departments in the college. The strategic perspective plan from IQAC and all the Deans will reach HODs. HODs then prepare action plans specific to his/her department with effective utilization of human resources and available facilities. All the faculty members are equally involved in executing the strategic plan in various capacity as individual coordinator (IQAC, R&D, Training and Placement etc.) and member of committees/cells (DAC and DAB) involving student representatives appropriately. The activities are periodically reviewed by the HODs.

Similarly, the Principal assigns responsibilities of planning and conducting the events such as placement training, extracurricular, outreach and extension, gender equity, sports and cultural etc., to various cells such as placement cell, NSS, women's cell, Universal Human Values cell, Sport & Cultural Cell etc. The cells carry out the activities as per the strategic plan. The principal reviews the progress of these activities regularly.

## **☒ Nature and Extent of involvement of Faculty and students in academic affairs/improvements.**

### **Student Feedback on Institutional Governance/Faculty performance**

- Students at the end of every semester. The designed format is used to take feedback. The information collected is used to understand the strengths and needs for improvements in the teacher's overall performance. This helps to take remedial measures leading to overall improvement in the teaching methodology in the department. Further, the course evaluation by students is done once a year and their feedback is considered for their ferment of syllabus in subsequent revisions.
